

ENTRUST

Print Ribbons

For Sigma DS Series Printers

HIGHLIGHTS

Entrust offers genuine print ribbons for optimal performance with the Entrust Sigma Direct-to-Card Printers. This provides assurance of secure, smooth-running performance, cost-efficient operation, and brilliant results.

Our print ribbon portfolio includes dye sublimation and resin thermal transfer ribbons that produce vibrant cards with:

- Colorful images
- Precise bar codes
- Crisp text with fine character fonts

KEY FEATURES & BENEFITS

- RFID communication allows automated ribbon recognition, increasing security and ease of use
- Each print ribbon kit includes a cleaning card and cleaning roller for convenient routine replacement at every ribbon change
- Optional topcoat panel increases card life up to three years, depending on the application
- Entrust print ribbons are designed for ease of use, enabling built-in smart features with our industry-leading issuance security architecture; keeping data safe at each step of the issuance process

Print Ribbons for Sigma DS Series Printers

Ribbon Type

YMCKT Print Ribbon

5 panels: Yellow, Magenta, Cyan, Black, Topcoat

Application

- Produces full-color, photo-quality images, crisp text, and precision bar codes
- Includes topcoat panel for image fade resistance and card protection
- For single-sided or double-sided card printing
- Full-length panels (98mm)
- Available in eco-friendly rolls or prefilled drop-in cassettes

ymcKT Print Ribbon

5 panels: Yellow (half), Magenta (half), Cyan (half), Black, Topcoat

- Cost-saving ribbon ideal for badging applications where color photos are printed on only half (up to 35mm) of the card
- Produces full-color, photo-quality images, crisp text, and precision bar codes
- Includes topcoat panel for fade resistance and card protection
- For single-sided or double-sided card printing
- Half-length (49mm) y, m, and c panels and full-length (98mm) K and T panels

YMCKT-KT Print Ribbon

7 panels: Yellow, Magenta, Cyan, Black, Topcoat, Black, Topcoat

- Produces full-color, photo-quality images on the front; and black resin printing of crisp text, logos, and bar codes on the back
- Includes two topcoat panels for enhanced fade resistance and card protection; both can be applied to front of card for extended card life
- For double-sided card printing
- Full-length panels (98mm)
- Available in eco-friendly rolls or prefilled drop-in cassettes

YMCK Print Ribbon

4 panels: Yellow, Magenta, Cyan, Black

- Produces full-color, photo-quality images, crisp text, and precision bar codes
- Requires lamination module for card protection over front-side color printing
- For single-sided or double-sided card printing
- Full-length panels (98mm)

Print Ribbons for Sigma DS Series Printers

Ribbon Type	Application
<p>YMCKK Print Ribbon</p> <p>5 panels: Yellow, Magenta, Cyan, Black, Black</p>  	<ul style="list-style-type: none"> • Produces full-color, photo-quality images on the front; and black resin printing of crisp text, logos, and bar codes on the back • Requires lamination module for card protection over front-side color printing • For double-sided card printing • Full-length panels (98mm)
<p>YMCKF-KT Print Ribbon</p> <p>7 panels: Yellow, Magenta, Cyan, Black, UV Fluorescent, Black, Topcoat</p>  	<ul style="list-style-type: none"> • Specialty ribbon produces full-color, photo-quality images and UV fluorescing blue panel for covert printing detail on the front; and black resin printing of crisp text, logos, and bar codes on the back • UV fluorescent text and images can be seen under black light; often used as a low-level security feature • Includes topcoat panel for fade resistance and card protection • For single- or double-sided card printing • Full-length panels (98mm)
<p>YMCKL-KT Print Ribbon</p> <p>7 panels: Yellow, Magenta, Cyan, Black, Luster, Black, Topcoat</p>  	<ul style="list-style-type: none"> • Specialty ribbon produces full-color, photo-quality images with added luster panel for translucent watermark printing features on the front; and black resin printing of crisp text, logos, and bar codes on the back • Luster printing features can include text, logos or images, providing a translucent mica color flip visual that is also black light visible • Includes topcoat panel for fade resistance and card protection • For single- or double-sided card printing • Full-length panels (98mm) come in eco-friendly rolls

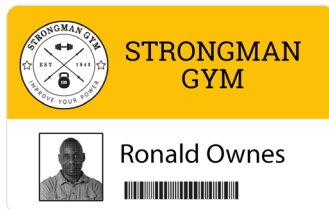

Print Ribbons for Sigma DS Series Printers

Ribbon Type

KT Print Ribbon

2 panels: Black, Topcoat

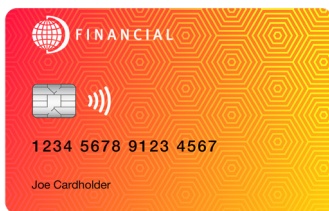

Application

- Black resin printing of crisp text, logos, and precision bar codes
- Topcoat panel for fade resistance and card protection
- For single-sided or double-sided card printing
- Ideal for adding personalization information to preprinted card stock
- Full-length panels (101mm)

KTT Print Ribbon

3 panels: Black, Topcoat, Topcoat

- Black resin printing of crisp text, logos, and precision bar codes
- Two topcoat panels provide enhanced fade resistance and protection for extended card life
- For single-sided or double-sided card printing
- Ideal for adding personalization information to preprinted card stock for frequently used cards
- Full-length panels (101mm)
- Available in eco-friendly rolls or prefilled drop-in cassettes

ST-KT Print Ribbon

4 panels: Silver, Topcoat, Black, Topcoat

- Silver matte resin printing of crisp text, logos, and bar codes on the front; and black resin printing on back for details such as CVV for banking applications
- Topcoat panels on both sides for fade resistance and card protection
- For double-sided card printing
- Ideal for adding personalization information to dark-colored preprinted card stock
- Full-length panels (101mm)

GT-KT Print Ribbon

4 panels: Gold, Topcoat, Black, Topcoat

- Gold matte resin printing of crisp text, logos, and bar codes on the front; and black resin printing on back for details such as CVV for banking applications
- Topcoat panels on both sides for fade resistance and card protection
- For double-sided card printing
- Ideal for adding personalization information to dark-colored preprinted card stock
- Full-length panels (101mm)

Print Ribbons for Sigma DS Series Printers

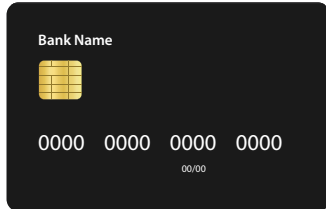

Ribbon Type

WTT Print Ribbon

3 panels: White, Topcoat, Topcoat

Single-sided print

Double-sided print

Application

- High opacity white resin printing of crisp text
- Two-topcoat panel applied dynamically over printed text for enhanced fade resistance and card protection
- For single-sided or double-sided card printing
- Ideal for adding personalization information to preprinted cardstock for frequently used cards
- Full-length panels (101mm)
- Available in eco-friendly refill ribbon kits, item # 525100-023, or drop-in prefilled ribbon cassettes, item #525150-023, both with 650-yield
